# TERRIFIC SHOCK.

Explosion at the Hazard Powder Works at Hazardville, Ct. This Morning.

STRUCK BY LIGHTNING.

FOUR BUILDINGS BLOWN UP. THE COUNTRY SHAKEN MILES AROUND. THOUGHT TO BE AN EARTHQUAKE. NO LIVES LOST.

Special Dispatch to the Transcript.1 Springfield, Mass., Sept. 19.-A terrible explosion occurred at Hazardville, Conn., at about 6.30 this morning at the plant of the Hazard Powder Co. One of the buildings was struck by lightning and

the explosion set fire to the other three. The lightning flash was followed by a terrific crash of thunder and a second later the country for miles around was shaken as by some great convulsion of the carth.

Thousands of panes of glass were broken in the buildings in town and the Shock was so great even at the distance of Springfield that it was thought here to be an earthquake.

The plant of the Hazard Powder Co. which employs 125 men, consists of five seperate milis known as orackers and dressers. A large quantity of explosives was stored in the crackers where the powder is prepared after leaving the pressos.

Immediately following the first explosion the three others followed in rapid ancomaton with fearful noise, shattering the window panes of almost every building in the town. No lives were lost.

The villagers were not as much alarmed as would naturally be supposed as experience has taught them to expect explosions and they know no lives were lost as the the milk are not operated nights.

It was not long however, before queries began pouring in from the surrounding country showing that many were under the impression an earthquake had visited a northern Connecticut and southern Mass

A building remotely located was ignited from the flying debris and was soon reduced to ashes. The loss to the Hazard company is estimated at \$25,000; loss to willagers \$1,000. The plant will be rebuilt as soon as possible.

### BURIED FOR 72 HOURS

A Hypactist Burles His Subject and Keeps Him Under His Power.

[Special Dispatch to the Transcript.] PROVIDENCE, R. I., Sept. 19.—The News today prints an interview with W. W. Budlong, proprietor of the "Burled Alive" exhibit at the recent state fair where it was claimed John Atlas submitted to an hypnotic test and was buried for seventytwo hours.

The News quotes Budlong, as saying that Professor Watson consulted with Atlanthrough a tube leading from the grave to the surface Monday night after the tent was closed to the public and that line subject gave no signs, being under he influence of the professor.

He also says the grave was opened secretly at midnight Tuesday and Atlan was given a few hours to move about and stretch his limbs before reinterment.

WIDE-AWAKE REPUBLICANS.

THE SECOND GREATEST DAY OF THE CAMPAIGN AT CAN-ELEVEN TRAIN-LOADS OF BRIGHT MEN WHO MOVE THE PEOPLE.

[Special Dispatch to the Transcript.] CANTON, Ohio, Sep. 19.—In spite of the rain and had weather the people began pouring into Canton this morning at a lively rate. With the single exception of yesterday today furnished the biggest crowd of the campaign.

The first arrivals were the railroad men from railroads entering Chicago. They came in by eleven trains in sections. After 9.15 the various sections arrived at intervals of 15 minutes until noon.

Meantime trains from other directions poured crowds into the hotels, halls, etc. Aside from the railroaders the delegagions included Republicans of Hulton, Pa., and two train loads from the Carnegie steel works at Homestead.

Crowds from stations between Junes. town, N. Y., and New Castle, Pa., and from points on the Western New York and Pennsylvania railroad arrived shortly after noon.

This afternoon the commercial travelers of Pitteburg and a number of trains from Northern Ohio are expected. Receptions are being held at the Grand Opera House instead of on the lawn at McKinley's home because it is raining.

ST. PATRICK'S CHURCH.

Corner-Stone of the New Edifice to be Laid Sunday.

The corner-stone of the new St. Patrick's church at Williamstown will be laid Sunday afternoon and the event promises to be a memorable one for local Catholies. The special services will be. gin Sunday morning at 10,30 with a solemn high mass in the old church on Main street. There will be special music under the direction of Mr. Leclair of North Adams, The laying of the corner-stone will take place at 2.30 p. m. Rev. Thomas D. Beaven of Springfield, bishop of the diocese, will be present and preside. The sermon will be delivered by Rev. J F. Leahy, president of Holy Cross college. Priests from neighboring towns will be present and assist in the exercises and it is expected that many prominent laymen will also attend.

Among the articles which will be pisced in the corner stone is a document written in Latin stating the day and date on which Bishop Beaven placed in position the stone. Another paper contains the name of Pope Leo XIII, that of the president of the United States, the governor of Massachusetts, the congressman of the district. he state representatives and senators and the selectmen of the town. A number of coins of the present circulation will also be placed in the stone and copies of cur-

rent newspapers. The new church will be completed early in the winter, work on it having been pushed rapidly since July. It coouples a fine site on Southworth avenue, is a stately building and will be a credit to the town. The architect was E. T. Barlow of North Adams.

The windows will be aspecially fine, nearly all being gifts of parishioners or friends of the church. The sanctuary window is the gift of the young women from the cities who spent the summer in town. It is a three-fold window representing the sacred heart accompanied by St. Joseph and the Blessed Virgin. Figured windows of St. Patrick, St. Anthony the good shepherd, the immaculate conj ception, St. Bridget, the crucifixion, St. Joseph and the annunciatory have also been donated.—Republican.

WANT IMPROVEMENTS.

A Number of Citizens Before the Board of Public Works.

A number of residents of Eagle stress and vicinity appeared before the board of public works at its regular meeting Friday afternoon to request that certain im provements be made in the sidewalks leading to the Eagle street bridge from both ways. One the south end is a walk made of flag and cobble stones. It is not strictly level and is very alippery at times. At the north end of the bridge there is a plank walk and there is room for considsrable improvement.

The board listened attentively to what was said on the subject and admitted that the suggested improvements were needed. The members said they were intending to make the changes, but the press of other matters had prevented. They promised to give the subject their early attention and the improvement will doubt. less be made in a short time.

## FIVE COWS HUNG.

A Stable Floor Gives Way This Morning With Disastrous Results.

A FARMER'S SERIOUS LOSS.

Finds Five Cows Strung Up by the Neck and Dead. Were all Right a Short Time Before. Distressing and Expensive Casualty.

A bad accident happened on the farm of L. J. Gardner in Williamstown this norning, by which five cows were killed. Mr. Gardner's cow stable is over a basement, and for some time he had realized that the floor needed strengthening, yet he did not consider that there was any immediate danger. This morning he went to the barn at 3.80 o'clock to do his chores and get ready for an early start for this city, where he has a butter route. Everything was all right at that time, but when he visited the barn again at 5 o'clock a grievous sight met his gaze. The stable floor had given way and his five cows hung in the stanchions dead. One of the cows Mr. Gardner had lately bought.

It was a terrible accident and brings to Mr. Gardner a severe loss.

BOYS' BRANCH RECEPTION.

The Y. M. C. A. Rooms Crowded. Entertalnment and Refreshments Furnished.

The reception given to the members of the boys' branch of the Y. M. C. A., Friday evening was attended by about seventy-five boys, and to say that the evening was crewded full of pleasure is very unnecessary. The boys were enter. tained by several of their members with musical selections and they entertained themselves in their usual manner. George Honkins addressed the boys and his remarks were well received. The refreshments which were served proved a popular feature of the evening's fun and that the appply was adequate was due to the secretary's knowledge of boys and their willingness to eat.

John Ward, a Democrat reporter, had the concentrated attention of the gather ing for about fifteen minutes with his exibition of hypnotic power. He found willing subjects and had no difficulty in subjecting them to his will. Mr. Ward was a subject of Prof. Lee on several occasions and by close observation he learned to repeat most of the experiments. The evening was one of overflowing delight and another such affair is already looked forward to by the members.

One of the best races ever seen on the ocal track is looked for Thursday, the last day of the Hoosac Valley fair. It will be by B. B., a pacer owned by Mr. Fox of New Haven, Conn., and H. J. Rockwell, owned by G. M. Dodge of Pitts" field. The local track record, 2.18, is held usual. The largest herds were, as usual, by B. B. These two horses raced at the Pittsfield fair this week and it was one of the closest and most exciting contests ever witnessed in this county. Rockwell won by a very narrow margin, crossing the line under the whip and with not a second to spare. The Republican in speaking of this race says.

"The free-for-all saw some of the best racing ever seen on the track. There were only two starters out of eight en tries. The track record was broken, with 1.074 for the first half-mile in the second heat, and 2.16 for a full mile, when Rockwell won hardly by a neck, and his driver had to apply the whip vigorously. ### BOARD OF PUBLIC WORKS.

The Widening of Union Street Necessitated. Electrics Have Right of Way.

The board of public works met Friday afternoon and considered the oft repeated subject of sewers. The regular auditing of bills and routine work was transacted. Engineer Locke was consulted regarding the proposed location of the bridge to be built by the Hoosac Valley Street Railway company on Main street. It was ded that the two new railroad bridges of the city bridges and they will have to be iron structures because of the nature guest was met at the station by a commit-

The important question concerning the encroachment on the public highway by property owners on Union street was prought up for consideration. The street eccordance with the drawings made

The early survey calls for a street fortynine feet wide, and at a point just east of the first bridge on Union street the road is only thirty-aine feet wide at present. A small building owned by D. J. Barber is located on the south side of the street and a large tenement block owned by Thomas Quinn is stationed opposite. The Quinn block has a porch in front

fully six feat wide and when it was learned that the electric cars were to run ment protest was poured into President Richmond's ears. The question is left to the board of public works to decide and the members have but one course to pursue, namely, the proper widening of the company will put the bridges in at once and the porch will have to be sacrificed. More still may befall Mr. Quinn, for there is a possibility that his block will have to be moved to the rear, or at least outside of the city highway line.

The cattle exhibit was not as large as from Shelburne, Colrain and Conway, and although but few brought their usual number, the quality was fully up to the average. George F. Dole of Shelburne Palis, who generally makes his appearance with twenty head of Durhams, only had ten that day, but they proved to be prize-winners. Among the lot was a dairy of six cows which made fifty-four spaces of cream. All of his stock is sired by "Marshall-Abbottsford," the offspring of a heifer which cost her owner. The attendance was large enough to make up for any shortage on The ball same between the North the first day, it being estimated that there were 8,000 people on the grounds. The first premiums for horse flesh were

awarded as follows: Geldings and mares, four years old, W. F. Hubbard of West Pfersick of Shelburne Falls; family horses I. D. Avery of Buckland; carriage horses, Matthew Barber of Greenfield; stallions hree years old, F. D. Kendrick of Shelburne Falls. The prize for horsemanship by lads and misses was divided between near the west end of the grand stand, and Mrs. A. A. Richmond of Claremont and Miss Sadie Baker of Savoy were given

In the hall the usual exhibition of fruit vegetables and faucy and domestic goods was displayed. The display of fruit was exceptionally good, the apples and pears being remarkably fair and large. The vegetable exhibit was not up to the usual standard. The array of needle-work, rugs, carpets and pillows attested to the busy fingers of western Franklin house wives, and the different articles were much admired.

### The Governor's Visit.

Immediately after dinner came the great event of the day, the visit of Governor Wolcott, who arrived at 1 o'clock accompanied by Executive Clerk Hamlin should be constructed on the north side of Boston and Councilman Charles A. tes and escorted to the grounds in state, the band in a wagon gay with the stars and stripes and evergreen leading the way. The governor was escorted to a seat in the center of the grand Stand by President Charles H. Leavitt and a few other prominent members of the society. After prayer by Rev. Dr. Lyman Whiting of East Charlemont, President Leavitt introduced Gov. Wolcott, whose address was one which for its directness of thought and simplicity of expression will be long remembered. The public schools will be closed Wed nesday and Thursday of next week for the agricultural fair, and probably on Fri day. The teachers are allowed one day each term on which to visit other school and it is probable that Friday will be given for that purpose. The work of macada inizing the entrance to the academy grounds has been retarded by the school children passing to and fro, and with four days next week the road could be finished.

REPUBLICAN NOMINATIONS

For President. WILLIAM McKINLEY

For Vice President, GARRET A. HOBART of New Jersey.

PITTSFIELD WILL NOT DO IT.

The Pittsfield Eagle of Friday suggests editorially that there is a possibility that s me of the delegates from that city to tle (ongressional convention may cast their votes for Dana Malone instead of A hley B. Wright. The Eagle then goes on to say that Mr. Wright has every reason to expect the support of Berkshire county and concludes by saying that there is no reason why Mr. Wright should n it have the united support of Pittsfield at this time.

To begin with THE TRANSCRIPT does not believe that after being elected as delegate in a city where every ward pussed a resolution expressing the intenon of the voters and endorsing Mr-Wright, any delegate, even if he had the it clination, would dare to be so dishones! to the voters who had placed confidence in him as to perpetrate such treachers and vote contrary to the expressed will, of the Republicans of his ward and hientire city.

We know that rumors are circulated o Gisgraceful and disreputable measures bling used since the cancus, looking to influencing pledged or instructed delegates to betray their trusts. The TRANsinipr does not place credence in th numors. They are insults to the delegate. who stand in their communities as honor able men or presumably they would no. have been chosen. Such rumors are als. insults to the intelligence and honesty o the men who voted for them and to the inir name of a city in this case, and threaten danger to the integrity and to the political influence and strength o Berkshire.

But the intimations and rumors wi immediately be closely examined into b the honest Republicans of Pittsfield, who are most interested in proving them to be without foundation. If such disre putable plans are attempted they will b quickly sat down upon, and those ir volved will have drawn upon themselve their deserved and lasting disgrace.

As the Eagle says there is no valid reason why Mr. Wright should not have the united support of Pittsfield at the time. Not only is this true but it is also true that Pittsfield is not going to permit herself to be placed in the position of traitor to the rest of Berkshire. We are confident the Republicans of Pittsfield have to much honor to permit anything of the kind, and understand too well th importance to themselves of not placing themselves in a position of political an tagonism to other parts of the county not only for this campaign but fo future years.

Berkshire has expressed itself emphati cally upon the Congressional questio from one end of the county to the other Pittsfield especially so, and the Republi cans of no city or town in it will permit themselves to be trifled with.

### HOW BUSINESS STANDS.

The financial bulieties in Boston Friday fead to the belief that the tightness of money is really the most unfavorable feature in the situation, although o course this is largely accounted for by the political uncertainty. A great many people would expand moderately if they could obtain the necessary credit. Money has gone West and South largely to move the crops, and besides this, nearly every business man in the cities has more money on hand than he usually carries. and still even this hardly accounts for the

remarkable absence of liquid capital. Stocks of merchandise were seldon smaller and even the invisible supply is being absorbed. Froduction has been curtailed except for the export trade. Prices hold remarkably Arm in face o such conditions. The fact is that prices credit and loans have been pressed to a point where it is difficult to press them further. In some quarters it is held that the combined money powers are endeav oring to hold enterprise and speculation in check to the end that the change when it comes may be absolute and per manent. At all events, what goes to make up the prosperity of a country- ar excess of merchandise exports over imports-is in striking evidence. People are waiting for the verdict at the polls Nov-

Republicans cannot afford, however, to be no zealous for their friends as to create such ill feeling that a doorway would be opened for a silver candidate to be elected-There is no use of attempting to deny that a little lack of wisdom might make the situation serious, or to deny that there is a silver element here which has at least shows strength enough to get up a large

## POLITICIAL FACTS.

Deeds are facts and are forever and ever. \* \* \* In silver countries, labor is cheap and kept cheap by the silver dollar. For my part I do not want that kind of prosperity. I want a prosperity, which, by good wages to all, is shared by all. We want a broader life broadening every day for all our people,-THOMAS B, REED

"FREE SILVER'S IN THE SADDLE!"

"YES, BUT WHAR'S DE SADDUL?"

COMMERCE NEEDS A STABLE STAND-ARD.

Vice Presidential Candidate Hobart Shows Why Gold Is the Best Measure of Values. In his letter accepting the Republican nomination for vice president Hon. Garret A. Hobart said:

The money standard of a great nation should be as fixed and permanent as the nation itself. To secure and retain the best should be the desire of every right minded citizen. Resting on stable foundations, continuous and unvarying certainty of value should be its distinguishing characteristic. The experience of all history confirms the truth that every coin, made under any law, however that coin may be stamped, will finally command in the markets of the world the exact value of the materials which compose it. The dollar of our country, whether of gold or silver, should be of the full value of 100 cents, and by so much as any dollar is worth less than this in the market by precisely that sum will some one be defrauded.

The necessity of a certain and fixed money value between nations as well as individuals has grown out of the interchange of commodities, the trade and business relationships which have arisen among the peoples of the world, with the enlargements of human wants and the broadening of human interests. This necessity has made gold the final standard of all enlightened nations.

If we are to continue to hold our place among the great commercial nations, we must cease juggling with this question and make our honesty of purnose clear to the world. No room should be left for misconception as to the meaning of the language used in the bonds of the government not yet ma-tured. It should not be possible for any party or individual to raise a question as to the purpose of the country to pay all its obligations in the best form of money recognized by the commercial

Any nation which is worthy of credit or confidence can afford to say explicitly on a question so vital to every interest what it means when such meaning is challenged or doubted. It is desirable that we should make it know at once and authoritatively that an "honest dollar" means any dollar equivalent to a gold dollar of the present standard of weight and fineness.

### Things Might Be Far Worse.

It is a frequent excuse of unthinking men for leaning toward free silver that "things can't be worse than they This is a mistake. Matnow are. " ters can be very much worse, especially for the workingmen.

First.—They would be worse if wages were paid in a 53 cent dollar or in a dollar worth less than 100 cents. However it may be with mine owners and mortgage debtors, men whose capital is their labor are not interested in having the "purchasing power of their dollar"

diminished. Second.—Things would be made worse for the 1,732,382 savings bank depositors in this state alone if their \$715,033,899 of savings were made payable in depreciated dollars.

Third.—Things would be worse for the nearly 1,000,000 pensioners if their monthly stipend were to be paid in 53 cent dollars. Fourth. -Things would be worse for

all the millions of beneficiaries of stock, mutual and co-operative insurance companies and all the 1,745,725 shareholders in building and loan associations if payment were to be made to them in any money less good than the best.

Fifth, -Things would be worse for everybody in case of a panic caused by the prospect of a silver basis.—New

From a Great Democrat. A depreciation of the currency is always attended by a loss to the laboring classes. This portion of the community have neither time nor opportunity to watch the eths and flows of the money market. Xngaged from day to day in their useful toils, they do not perceive that, although their wages are nominally the same, or even somewhat higher, they are greatly reduced, in fact, by the rapid increase of currency, which, as it appears to make money abound, they are at first inclined to coneider a blessing. — Andrew Jackson, Eighth Annual Message.

We cannot by law fix the value of either metal or coin or of any of the articles that enter into the wants of life. The great law of demand and supply affects the value as it does iron, copper or zinc. All have fallen in market value by means of new discoveries and improved methods of production. - Senator

### WHO IS TO BLAME? The Free Silver Wolf Says That the Sound

Money Lamb Is Disturbing Business. The wolf in the fable blamed the

lamb for stirring up the bed of the stream and making the water muddy. "But," said the lamb, "the water runs from you toward me. I could not have disturbed your drinking." "Oh, well," the wolf rejoined, "if you did not, your grand ather did." And he straightway dined on young mutton.

The silverite wolves who are howling calamity and threatening to overthrow our sound financial system pretend to find an excuse for their 18 to 1 schemes in the unsettled condition of business. Because loans are being called in and capital is timidly valting the result of the elections, the advocates of free coinage say, in the words of their presidential candidate, "You are interfering with business." All unfavorable indications in trade and industry they loudly ascribe to the gold standard, and the manufacturers who are forced to limit their output by reason of the refusal of merchants to buy while there is so much uncertainty about prices are accused of being goldbags who are purposely making hard times.

It should be easy for all intelligent voters to see through the hypocrisy of the silverite claims. Nothing can be more certain than that instead of being due to the gold standard any financial stringency which may now exist is almost entirely caused by the agitation for a debased currency. With a large number of office seeking politicians going up and down the country shouting cheap dollars, and promising to cut the measure of values in two if they gain control of the government, how can business be good? A tight money market simply means that the owners of capital are unwilling to make loans. Does any reasonable man expect that the threat of enabling borrowers to pay their debts in 50 cent dollars is going to encourage investors to part with their capital? On the contrary, is it not self evident that the clamor for a debt re-pudiation policy is the real source of

So long as there remains any doubt as to the future financial basis of our great industrial and mercantile operations so long will there be anxiety and fear in the commercial world. Distrust will continue to breed failures; capital will be scarce and interest high; debts will be hard to collect, and investors will hesitate to engage in productive industries. This condition of affairs can only be remedied, in so far as our money standard is concerned, by an emphatic declaration at the polls against free silver and all other cheap money fallacies.

Getting Rich In Their Minds. The silverites who are dreaming of great wealth to be had for everybody through the simple process of calling 50 cents a dollar should wake up long

enough to ask themselves this question: "If a dollar's worth of property means a certain quantity of labor products, would there be any more of these products for the men who want them if we say that the same amount of property is worth \$2? In other words, does an increase in the prices of goods mean an

ncreased quantity of goods?" By the time they have thought out an answer to this question the victims of the 16 to 1 delusion will be able to see that, though they might legislate that every dollar's worth of products should be worth 100 times as much, the only change would be in the minds of the men who made the law. Dreams of great riches are mighty poor substitutes for solid labor products

Even if it were true that free coinage at 16 to 1 would raise the price of silver, how would that benefit the great majority of the American people? Not ane person in a thousand owns a silver mine or has silver bullion for which he wants a higher price. But everyhody wants to buy silver in the form of manafactured articles of use or ornament. and therefore wants it to be as cheap as possible. A scheme for making glassware or hardware dearer would not receive much favor from the consumers of those goods. Is it at all likely that the consumers of silver manufactures are enzious to pay more for them?

I hold sound, stable currency to be among the greatest encouragements to industry and business generally and an ansound and fluctuating-now expanding and now contracting, so that no honest man can tell what to do-as among the greatest discouragements.-John C. Calhonn, 1838.

This is his first visit here since he moved away and the changes have been so great that it does not seem to him like the same town. He is pleased with the growth and prosperity of North Adams, and yet he has no desire to return to the east to live. He likes the west and hinks that, on the whole, the opportuni lies for the poor man are greater there than here. While here Mr. Morrison worked on the construction of the little unnel, and he looked it over the other day with an interest such as old assoct tions only could give. He and his daugh ter are enjoying their visit greatly, but will be well satisfied to return to the prosperous state of Minnesoit when it is ended

John A. Mooar.

John A. Mooar, a life-long resident of the town, died Friday at 3. p. m. He had been in very fair health until within the isst month, when he commenced to run down and his system gave way. Part of Mr. Mooar's life was spent as a merchant in company with M. W. Potter in the old store which stood on the spot where A. G. Parker & Son's, store stands now. Some years ago Mr, Mooar bad a shock, which although leaving his mind unimpaired, so acted on his organs of speech that since that time he could speak only with great effort. He was highly respected by all who knew him. He was a good Rapublican and a member of the M. E. church. Besides his wife he leaves two sons, John W., and Wright Mooar of Colorada, Tex., and one daughter, Mrs. John W. Combs of Paterson, N. J. He was 81 years of age. The funeral will be held Sunday at the house at 2 p. m., Rev. E. L. Arnold officiating.

### A MAN FROM OHIO.

Mr. Longley's mistake, the mistake of his life, grew ont of his first mistake, which was in ever coming to California. He was agent for the Pacific Steamship company prior to his occupying a similar position in a great lakes company. He had never seen the ocean until he came to Mouterey. But he didn't think

He need to go over to the telegraph office where Carpenter was, and there, on a pile of blue butter boxes, mr his mind pretty freely concerning "these infernal greasers " Longley wasn't a bad fellow back in Ohio, but out here he could not or would not shake into place. He was going back, when he had a stipulated sum saved, to marry the prettiest girl in Ohio. Meantime he chafed and fretted at his chain.

One of the first things he did had gained him the ill will of all the loungers in the crooked little street. Benito. 4 years old, came running to him. Every one addred Benito, for the Spanish are baby lovers and not in the least ashamed to show it-Benito, with lovely erimson cheeks and great, velvety black eves. Dirty? Oh, so dirty, but also so charming. Just as he reached the hombre graude, he tumbled flat, and the "great man" calmly put out his foot and lifted Benito out of the way on the toe of his boot. They all saw that-Manuel. Francisco, the Moreno boys, Jose Erron, all—for they were sitting in front of Charley Rodriguez's saloon, keeping a wary eye out for possible whales in the bay. Benito ran howling to them, and the wound his vanity had received was healed with caudy and soft words But it would have been well for Mr. Longley if that had never happened.

The Spanish mamma is an excellent matchmaker, and very seldom has any old maids on her hands. She takes advantage of that contrary little twist in a man's nature which makes him want what is just out of his reach. So Ysabel, or Carmelita, or Dolores, as the case may be, is sedulously guarded by the mother, who makes certain that her daughter is never alone with any young man a moment. Mr. Longley said often he did not care a pin for their customs. He was from Ohio and brought his own gode of ethics and etiquette, which these greasers were obliged to trim to-not he to fit to theirs. No, sir! So, in line with these sentiments, he told Carpenter one day that he was going to take Julia Estudillo to the Thanksgiving ball.

"Have you asked her mother?" inquired the cautious Carpenter. "I don't intend to," replied Mr. Long-

ley. "I haven't asked the girl yet, but she'll iump at the chance to go with a white man. Say, she isn't a bad looking girl for a g--."
"Look out!" interrupted Carpenter,

"you are a little too handy with that

epithet. And you intend taking the girl alone? 'Alone!" said Longley firmly. "No old duenna tags me around." "You'll get yourself in trouble sure."

Riccipie Fencing. Lovers of fencing will be interested in an invention which has just been

tried in London, and which is said to do away altogether with the difficulty constantly experienced by an umpire in judging bits between two equally matched competitors. This end, it is declared, has been solveed by covering the front of each jacket with one copper bell (of the burglar alarm pattern) and battery in the same circuit. It follows that when a hit is made the circuit is closed, and the bell rings and continues to ring until stopped by the person in charge. A special arrangement in each foil handle provides that only a direct point produces a ring. Two entirely electrically distinct circuits are used, each including a bell, foil and jacket; flicks or blows or grazes produce no result. The bells being of different tones, and, moreover, placed on opposite sides of the room, there is no difficulty in de-ciding who has scored a hit, or, in cases of almost simultaneous hits, who delivered the point first. By a simple arrangement the wires passing from the batteries to the combatants collars are kept well out of the way, however sudden may be their movements of advance or retreat. In the London trial six selected amateurs competed for a pair of foils, and five bouts were fought. The experiments were completely successful. A military expert, Captain Huttor, who was present, said that the device would be of great value at such connetitions as the royal military tournament.

A funeral is still remarded as a very high festival in rural Yorkshire. A poor woman was lately heard complaining of the fare provided at one she had at-"A paltry concern," she said, scornfully, "Nobbut cakes and such like. Now I've buried five, but I sided 'em all off with 'am!" And this: A farmer was assisting his daughter in the choice of a dress, and, seeing her fancy jucline to a blue one, said remonstratingly, "Nay, lass, tak the black one, hapnen the might have the luck to be aved to a funeral," and his counsel prevailed.

A New Plan to Facilitate the Identification of Travelers.

Perhaps the bulky old passport has had its best day. In its stead the identification

its best day. In its stead the identification book is now growing in public favor.
While passports were intended for identification they did not always identify. The more verbal description filled in by the owner primarily and then copied by some clerk in the state department was sufficiently exact for ordinary occasions, but not for extraordinary ones. And the price touries progress for both wise tourist prepares for both.

Travelers who are not equipped with

any language but their own under the passport system can be exposed to more than petty annoyances, particularly is the more unfrequented paths of Spain and Russia. They may have trouble in seouring mail addressed to them or in cashing money and express orders. And instances are by no means infrequent where travelers have been absolutely stranded for lack of funds which were even then waiting for them at some provincial postoffice, and they were sacrificed to the elaborate even ples of some honest but obstinate village

But, armed with an identification book, one can refuse to be buildozed by an offi-tion for last of ordenue of one's identity. The matter of its official adoption by the United States will come up for consideration this winter in Washington. Most of the European countries have successfully tried the system. France and Italy were the pioneers in the movement and have shown no desire to return to earlier

The book of identification is a small paper bound volume of a size convenient for the pocket. It may be purchased at any postoffice at an outlay equivalent to 10 cents. Those of the true faith will not work, and there are seven of us and nine of the family of my sister. Would you have us starve?" It is a sad thing that religion must give way to matters of expediency. The dollar dominates

Carpenter, with a grim line round his mouth, wondered as he stood watching the priest's genufications if Longley was recalling any of his somewhat in temperate remarks about priests and greasers. Representative Stination.

The Republican representative nomina tion fight has been reduced to two men Frank L. Morse and Julius C. Anthony. The other aspirants for the office among whom were A. L. Phillips and other good question who will get the nomination. Both are good men and popular through-out the district. Mr. Morse is proprietor of the Greylock house and has a liquor license, which will throw the anti-saloon delegates to the other side. His friends are working hard for him however and so are Mr. Anthony's. Of the delegates chosen it is impossible to say who they will vote for but a glance at the list would cause one to think they were very nearly evenly divided. The convention comes a week from today and there will

GRAND VIZIER WANTS TO RESIGN

Bemands the Dismissal of the Minister Police, Whese Butcheries the Sultan Sanctions ... Alleged Armenian Ptot Discovered.

London, Sept. 19.—A dispatch re-

ceived here from Rome says that Vice-Admiral Canevaro, with the flying quadron, will leave for the Levant at the earliest possible moment. A Constantinople dispatch to the Morning Post says: "The grand vizier, Halil Rifat Pasha, threatens to resign unless the minister of police is dismissed, on account of the recent massacres. The aultan uphoids the minister of police and refuses to accept the resignation of the grand vizier." An editorial in the Daily News (Liberal), commenting upon the semi-official statement issued by the government with regard to its policy in Turkey, saying that it cannot set alone in defense of the Armenians says: "It will be a bitter disappointment for everybody, but the country must persevere. The true business of the government is, not to force the Dardanelles, but to force a concert of the powers to its own righteous and

honorable end."

An editoral in the Times, after remarking that "for the present the indignation against the Turk is confined to England and the United States, which abstains from all intervention in European questions," calls attention to a remarkable letter of Lord Hugh Cecil, the Marquis of Salisbury's son, as an indication of the views of Lord Salisbury and the cabinet. Lord Hugh said in this letter that it would be dangerously misleading the Armenians for England to make them believe that she alone could save them. The Times also calls attention to "the notorious fact that Russia will not tolerate any coercion of Turkey," and appeals to the equatry to consider well the risks it will run in an agitation for action on the part of England. The Times continues, saving: "The government may be relied upon to do all that prudence and the means at her command will allow. But it is useless to spur a willing horse, and it may be fatal to both horse and rider to spur him at an the leading sound money democrats. impossible fence."

Too Many Enropean Interests at Stake, A dispatch from Constantinople to the Times emphasizes the fact of the paralysis of the trade there and the jeopardy of £400,000,000 of European capital engaged in enterprises in Turkey. Dispatches from Berlin, Vienna and St. Petersburg to the Times reproduce semi-official articles given out at those capitals showing that the powers are not disposed to assist in any coercion of Turkey.

Alleged Discovery of an Armenian Plot. Constantinople, Sept. 19.-The police announce that they have made an important discovery of bombs and other explosives and incriminating documents in an Armenian house in Scutari. Two of the leaders and many of the members of the Armenian committee have been arrested in connection with the discovery, and have contessed their guilt. They have also denounced many of their accomplices to the police. The police have a hope of being soon able to unearth the whole plot. The British Mediterranean squadron is expected to arrive at the island of Lemnos to-day. Active preparations for sea duty are proceeding among the vessels composing the Russian Black Sea squadron. An foreigners who do not enjoy the confidence of the government will be ex-

pelled. Under Russia's Wing.

Vienna, Sept. 19.-The Neue Freie Presse says that the inspection of the ferts of the Dardanelles by a Russian general is the sultan's reply to Eng land's effort to force him to abdicate, and that it is also the response of Russia, which has taken the sultan under its protection, to England's menace.

Desperate Fight with Students. Atkens. Sept. 19.-A dispatch from

Constantinople states that a number of softas (theological students) and members of the young Turkey party had a desperate fight in Galata on Wednes-Fifteen of the combatants were killed. The dispatch adds that many of the archives of the British ambassy have been placed for safety on the British guardship in the Bosphorus.

Rotebery's Alarming Views. London, Sept. 19 -Ex-Prime Minister Rosebery, writing to one of his supporters in Yorkshire, says: "We are face to face with Russia's declaration of August, 1895, that she would oppose separate action on the Turkish question by any power. Russia's attitude has not been modified. Going forward alone would therefore involve a European war." The Russian ambassador paid a long visit to the foreign office

Mr. Gladstone's Hope of the Crar. London, Sept. 19.—A letter from Mr. Gladstone with reference to the proposed memorial to the czar has been published. In it he expresses the hope that the heart and mind of the czar may be awakened to the "fearful mischiefs" which the policy of the late Russian minister for foreign affairs, Prince Lobanoff-Rostovsky, "has done

so much to promote." DEPOSITORS NOT EXCITED

To Be Sane. New York, Sept. 19.—Albert George Whitehead, recently released from Portland prison, arrived in this city last night on the Cunard line steamship Lucania. After the gang plank Major McKinley rode at the head of had been lowered Gen. James R. O'Beirne, chairman of the conference committee, was the first person to go on board. He was conducted to Mr. Whitehead, who was in the cabin with his brother, John Murphy, who went to Europe to bring him back. He was followed by Whitehead's two sisters, Mrs. Egan and Miss Ella Mnrphy. When Whitehead learned that friends were coming on board to greet him he said that the only person he wanted to see outside of his immediate family was Gen. O'Beirne and expressed satisfaction at having arrived safely in ternoon was the Tippecanoe club of America. Reporters were not permitted to speak to Whitehead on board the ship. After nearly all the passengers had landed Whitehead walked down the gang plank leaning on the arms of Gen. O'Beirne and his brother. His sisters followed and they, with O'Beirne, Murphy and Whitehead, got into a carriage and were hastily driven away. Gen. O'Beirne, Whitehead's

brother and others who were permitted to converse with Whitehead, said that he was sane. John Murphy said that Whitehead had never been insane. Others said that he was exceedingly childish. The officers of the ship said that Whitehead was very well behaved on the passage and had caused no Denial by Heldelberg.

WARM GREETING AT RICHMOND

Auditorium and Another from a Hotel Balcony ... Remained at the Capital All Night.

Richmond, Va., Sept. 19.-William

J. Bryan's greeting here last night was very enthusiastic. The receptions at Columbus and Toledo, although they were greater in the attendance, could not compare in enthusiasm to last night's meeting. Mr. Bryan's greeting at the railroad station when he reached Richmond at 7 o'clock from Goldsboro, N. C., was also very fiattering. The great auditorium of the state exposition building was the scene of the meeting addressed by Mr. Bryan. It was said that there were fully 18,-000 people present. Women in cool, summery dresses, crowded the boxes, and the scene was a pleasant one. It was late when Mr. Bryan arrived. He blinked his eyes as he entered the hall from the rear of the stage, for all but four jets of the electric light globes had gone out and the first impression of one on entering was that of semi-darkness. The reporters had to write their copy by means of coal oil lamps. And so it happened that William J. Bryan received his most demostrative greeting since his visit to the south from an audience of whom only half could hardly see his face and figure. Senator John W. Daniel rose to introduce Mr. Bryan amidst much cheering. Soon it became quiet enough for the presidential nominee to be heard, but all through his address there were shouts, partly suppressed cheering, and some disorder, that made it hard for his words to reach all in the hall. After his speech Mr. Bryan hurried out of a private door to his carriage. He was taken to the Jefferson hotel, and made an address from the hotel balcony to about 10,000 people gathered in the street below. Mr. Bryan spent the night at the Jefferson.

SEARCHING INDIAN RUINS. Explorers Return from the Moqui and

Zuni Reservations. Albuquerque, N. M., Sept. 19 .- Dr. and Mrs. J. Walter Fawkes and Dr. Walter Hough have returned from a tour through the Moqui and Zuni Indian reservations, where they have been engaged in important archaeo-lugical exploration for the Smithsonian institute, Washington. The results of the expedition are of great scientific value. The explorers have forwarded to the Smithsonian institute a collection of 1,500 specimens excavated from the mines near Winslow, Chavez pass and the Moqui reservation. Dr. Fawkes regards the ruins near Winslow as older than the middle of the sixteenth century, no evidence of Spanish or American influence having been found in the excavations.
